BAY PARK CONVEYANCE PROJECT

Project Name: Western Resiliency Initiative - The Bay Park Conveyance Project a Design-Build Project DEC Contract No. D01183

Owner: New York State Department of Environmental Conservation in partnership with Nassau County Department of Public Works

The Bay Park Conveyance Project is a design-build project located in Nassau County, New York. In an effort to improve the water quality in the Western Bays, the Department and the County have entered into a cooperative agreement to implement the Project to remove a significant portion of the nitrogen load from a compromised area. The Project will help jump-start the rejuvenation of vital marshlands and grasses that protect communities from wave action and coastal surge. In addition to increasing the resiliency of areas along the Western Bays to coastal flooding, this Project will give the local ecosystem a chance to regenerate, bringing back cleaner, healthier bays for wildlife, shellfish, fish, visitors, and local residents alike.

This innovative Project will divert treated effluent from the Bay Park Sewage Treatment Plant (STP) which currently discharges an average of 50 million gallons per day (MGD) of treated effluent into Reynolds Channel. This treated effluent will be conveyed via the construction of a 2-mile long force main from the Bay Park facility to an existing aqueduct under the Sunrise Highway, rehabilitation of a 7.3-mile stretch of the aqueduct, and construction of an approximately 1.6-mile long force main to connect the rehabilitated aqueduct to the existing Cedar Creek Water Pollution Control Plant (WPCP) outfall, which diffuses treated effluent three miles offshore in the Atlantic Ocean.

WDF supports hiring Section 3 of the Housing and Urban Development (HUD) mandate that requires employment and other economic opportunities generated by federal assistance to public housing authorities to be directed, whenever possible, to public housing residents and other low and very low income residents to work on all of our New York City Housing Authority ("NYCHA") projects. WDF supports hiring Resident Employment Program (REP), which requires that 15 percent of the labor amount of NYCHA construction contracts greater than $500,000 be spent on resident hiring. To that end, WDF’s approach to meet NYCHA Section 3 requirement and our past Section 3 performance has been to commit to working with Resident Economic Empowerment Sustainability Department (REESE) to source Category 1 and 2 residents. WDF is dedicated to meet with resident organizations and community workforce development centers located within the neighborhood in which the project is located to partner in Section 3 resident employment recruitment.
